

ButtonController.Update

RythmController.Update

ButtonController.Leave

```
graph LR; A[ButtonController.Update] --> C[ButtonController.Leave]; B[RythmController.Update] --> C;
```

The diagram illustrates a control flow where two update methods, 'ButtonController.Update' and 'RythmController.Update', both lead to a 'ButtonController.Leave' method. The 'ButtonController.Update' and 'RythmController.Update' boxes are white with black borders, while the 'ButtonController.Leave' box is gray with a black border. Blue arrows indicate the direction of the flow from the update methods to the leave method.
